

EW-100RL Hot & Cold Cutting Machine

Dimension & Weight

Features

1. Able to cut various materials such as wire, tube, ribbon, zipper, tape, sheet, film.
2. Two cutting modes: hot cutting (up to 400 °C) and cold cutting.
3. Ensure the smooth of the cutting edge.
4. Memory cutting setting.
5. Automatic feeding function.

Technical data

Model	EW-100RL
Material width	0 - 80 mm
Cutting length	1 - 9999.9 mm
Cutting increment	0.1 mm
Maximum cutting temperature	400° C
Productivity	120 pcs/min (length = 100 mm)
Blade material	Imported high quality blade
Control mode	The latest generation of ARM control system
Motor system	AC motor
Display	LCD display
Power supply	110 V, 220 V (50 - 60 hz)
