

## EW-7710-1+P Cable Rotary Labeling Machine

---

### Technical data

---

|                          |  |
|--------------------------|--|
| Model                    | EW-7710-1+P                              |
| Label volume size        | <ID 76mm, <OD 200mm                      |
| Label Size               | Length 30-50MM * Width 10-50MM           |
| Wire Diameter            | OD4-10mm (Other sizes can be customized) |
| Capacity                 | 1000-1200PCS/H                           |
| Applicable Wire Size     | OD 3-10mm                                |
| Inkjet printing function | YES                                      |
| Labeling accuracy        | ±0.5mm                                   |
| Working pressure         | 0.5~0.8 Mpa                              |
