

EW-20C-2 Wire tying machine

Features

- The EW-20C series is designed for industrial tying applications.
- Quick production setup with custom language options.
- NSK linear guides are selected for stable performance and repeatability guarantee.
- With 0.7 s/time fast tying speed, the production efficiency is maximized.
- Each roll of tie wire can be used 5000 - 8000 times according to tying diameter.

Technical data

Model	EW-20C-2
Tying OD	18 - 45 mm
Tying speed	0.7 s/time
Tie wire length	120 - 190 mm
Twist number on tie wire end	Adjustable
Noise level	< 70 dB(A)
Power supply	110, 220 V (50 - 60 Hz)
Power	100 W
Program language	English (custom option)
Dimension	500 * 380 * 320 mm
Weight	23 kg
