

EW-06F

Coaxial Cable Stripping Machine

Technical data

Model	EW-06F
Wire diameter	0.8-7mm
Stripping mode	Rotary stripping
Max. stripping length	0-48 mm
Capacity	750- 1150 pcs./h(depending on wire material)
Length accuracy	± (0.002 * L) mm
Max. stripping layer	9 layers
Memory program	99
Drive mode	Motor\ball screw drive
Display	Touch Screen
Blades	2 pcs tungsten steel
Power	400W
Cut precision	0.01 mm
Dimension	600*185*280mm
Power supply	AC220V/50Hz (110V is optional)
Weight	27Kgs

Features

- 1.Suitable for different types of semi-flexible and flexible coaxial wires, charging cables, medical wires' processing in communication and medical industry.
- 2.Smooth stripping edge and no harm to the conductor.
- 3.The stripping stability and blades' lifetime are highly improved owing to the rotation head blade and four pieces of exquisitely designed blades.(Blades are made of imported tungsten steel and titanium alloy coating, wich is sharp and durable.)
- 4.Servo-motor, precision ball screw and multi-point movement control system are adopted to realize the stable and efficient working performance.
- 5.Human-computer interface, which easy to operate and understand.
6. With maximum 9 layers stripping capacity and 99 memory settings function.
