

EW-707

Automatic brush shield twist weave and aluminum foil strip machine

Features

This machine is mainly used for USB data line, microphone line, etc., which is composed of stripping , brush shield , twist weave , stripping aluminum foil, etc. The device is compact in structure, and has the characteristics of high speed and high precision, which solves the cumbersome and inefficient confusion of brush shielding, twisting and stripping aluminum foil in the traditional industry.

Technical data

Model	EW-707
Whether to provide processing customization	Yes
Power form	Linkage
Control mode	OD 2mm-10mm
Working voltage	AC220V 50HZ
Wattage	1KW
Stripping Length	10-40mm
Work efficiency	2000-2300pcs/hour
Weight	220KG
Machine size	1500*680*1250mm
