

EW-5045

Vertical Feeding Wire Stripping and Terminal Crimping Machine

Features

1. Adopts advanced frequency conversion technology to precisely control the variable speed motor, and is equipped with a high-precision control module and a transmission mechanism to make the stripping end one-time completion .
2. Driven by the cylinder, the action speed is fast, and the positioning is accurate .
3. The pneumatic parts are all made of Taiwan Yadeke brand components, which are durable and accurate.

Technical data

Model	EW-5045
Power Supply	Single Phase 200V-240V 45/60Hz
Air Source	0.5-0.6mpa (Dry and clean air)
Applicable wire Diameter	AWG16#-AWG24#(Different depends on the wire)
Applicable wire	AV、 AVS、 AVSS、 CAVUS、 KV、 KIV、 UL, fiber line ,etc.
Stripping length	1.0mm-8.0mm
Cutting error	0.05mm-0.1mm
Position error	0.05mm-0.1mm
Crimping terminal	Open continuous terminal, straight
Crimping capacity	2T
Stroke	50mm
Dimension	L450*W500*H1000mm
Weight	100KG
