

## EW-2580

### Electric intelligent pull tester(Industrial version)

---

### Features

---

- 1 . 12 kinds of terminal measurement detents plus special collects meet the requirements of various types of measurement clamping.
- 2.Real time display of tension curve, simple and intuitive.
- 3.The measurement results can be reported directly after production.
- 4.Storage of tension, curve, data and measurement records.
- 5.Barcode gun for data entry and item number verification.
- 6.Connect MES system for data interaction.
- 7.The device can be connected to a printer to print reports.

### Technical data

---

Model	EW-2580
Measuring range	20-1000N
Accuracy	±1%
Measuring speed	20/50/100/150mm/min
Stock	70 mm
Interface	USB, RS232 ,Ethernet
Units	N/KG/lb
Power Supply	AC 100- 220V 50/60Hz
Overall dimension	450x280X400mm
Weight	15kg
