

EW-5585

OT/UT Terminal Stripping And Crimping Machine(0.5-6mm²)

Feature

It adopts high-definition color operation screen, the interface is simple and easy to understand, and the visual parameter setting and debugging interface allows operators to quickly get started without complex training.

This machine is suitable for processing new energy wiring harness wires, chassis cabinet wiring harnesses, industrial wiring harnesses, and can be customized for processing equipment in the electronics, electrical appliances, communications and other industries.

Technical data

Model	EW-5585
Applicable wire Diameter	0.5mm ² -6mm ²
Applicable wire Material	BVR
Processing capacity	1400-1500PCS/H
Stripping range	Shortest sheath stripping Length 35mm
Stripping length	1.0mm-18.0mm
Tangent error	0.1mm-0.15mm
Position error	0.1mm-0.15mm
Power	1200W
Power Supply	Single Phase 200V~240V 50/60Hz
Air Source	0.4~0.6mpa
Body size	L600mm*W590mm*H430mm
Total weight	75KG
Pedal Start	N/A
