

## EW-1015

### Cable Shield Braid Brushing and Twisting Machine

---

## Features

---

Cable Shield Braid Brushing and Twisting Machine EW-1015 is mainly used for brushing and twisting the outside braid of shielded cable. It can brush and twist cable braid layer all-in-one. The speed is controllable, and the performance is stable. It is a common and necessary equipment for wire harness processing. EW-1015 can be used for processing different kinds of ground cables, braided cables, shielded cables etc.

## Technical data

---

Model	EW-1015
Wire diameter	Max. 8 mm
Twisting Length Range	10 - 80 mm
Adapter Output	DC 24V .3A
Power	40 W
Weight	12 kg
Dimension	320 * 310 * 210 mm
