

EW-5010A

Bulk ferrules strip and crimp machine

Features

1. The product is small in size and easy to operate, and can be placed in the final assembly site .

2. A variety of terminals share one machine, saving cost and sharing

3. Fully sealed and peeled and crimped for safe operation .

4. Multiple processes are combined to save labor and reduce product processing costs.

Technical data

Model	EW-5010A
Control Mode	human-machine interface,electronic control, pneumatic control
Operation Mode	Automatic trigger operation and manual operation
Twisting Function	Yes
Wire Size	BVR wire 0.5,0.75,1.0,1.5,2.5,4.0mm ²
Stripping Length	Max.17mm
Max Tube Length	12mm
Crimp Shape	Quadrilateral Crimp
Production Capacity	2.8s /wire
Air Supply	0.6-0.8Mpa
Working Temperature	10~25℃
Power Source	AC220V/110V/50/60Hz
weight	40KG
Dimensions	W350mm×L450mm×H400mm
