

EW-1880 Automatic Tape Wrapping Machine

Technical data

Model	EW-1880
Tape width	10mm-20mm (products with high overlap requirements cannot be used universally)
Tape outer diameter Maximum	130mm
Starting method	Foot/sensor switch (satisfying the conditions for optical fiber to sense fingers)
Tape material	Mara glue Masking glue Wall glue Electrical tape High temperature glue Acetate tape Transparent tape, etc.
Cutting tape length	20mm -115mm
Tape replacement	Method New and old tapes are glued end to end
Wrapping product diameter	5mm-20mm
Vulnerable parts	Paper cutting scissors, paper reel, elastic belt
Machine weight	29kg
Applicable power supply	220V/50HZ
Power	1500W
Dimensions	80cm*35cm*60cm (length x width x height)
